With a help from the youtube channel Coding Spot,

By watching the channel's videos <a href="https://youtube.com/playlist?list=PLr-iRXN7HiJgJzMX22AVw4IU8ZOR4JS97">https://youtu.be/Bk9hINZc6sE</a>

And our book <a href="https://inventwithpython.com/invent4thed/chapter10.html">https://inventwithpython.com/invent4thed/chapter10.html</a> I tried to make a Tic Tac Toe game AI is fun and the overall GUI resembles with google tic tac toe.

My reference is <a href="https://github.com/AlejoG10/python-tictactoe-yt">https://github.com/AlejoG10/python-tictactoe-yt</a> and <a href="https://github.com/AlejoG10/python-tictactoe-ai-yt">https://github.com/AlejoG10/python-tictactoe-yt</a>

The code consists of class for BOARD, AI, GAME, and by clicking 'r' or space button, player can replay the game. Also, there is a bgm playing.
